Downloading Ideas

Videos mp4

Unfortunately, we're not able,
at this time, to give a user-friendly
name with the downloaded videos,
so ---------- immediately after
downloading a video,
change its "url" file name,
to the name of the song!

Songs

1, make a separate folder for each song
2. download all song parts into its folder
        e.g. vocal mp3
              instrumental mp3
              video mp4
              pdf with lesson ideas

Once a song has been taught,
keep a "current" folder
with copies of either mp3 or mp4
for each favourite song.
This will allow quick access for singing.

How To Use Can Do

Most songs may be used to focus on most musical elements (excepting specific pitch matching songs chosen for sequential learning).

1. Take the songs from Can Do and encorporate them into the curriculum you use now to refresh it.

2. Put your favourite songs into a Can Do lesson, keeping the learning focus on the one outlined there.

3. Follow the lessons and songs as laid out in Can Do to cover curriculum expectations.

Can Do Music is a resource that may be used many ways.
