

# Muddy Chants

Lesley J Clare c. 2018

## Mud On My Shoes

## Mud in Puddle

## Mud Ooey Gooey

various percussion instruments

Practice reading skills with these simple chants ... then turn them into rounds or partner rhythms; create original accompaniments with found or orchestral percussion or write your own muddy messes!

Audio and video follow steps for learning. Step 2 and 4 are voiced.

- ① Listen, look, think!
- ② "ta's and titi's"  
Clap and say!
- ③ "ta's and titi's"  
Clap and say!
- ④ Read the words.
- ⑤ Add dynamics/drama!

Elephants are very fond of mud!

1 Place one of the "mud chants" on the pocket chart.  
Give a clear, firm count-in: 1 2 ready, read ...

1. read and clap the rhythm symbols
2. half the class claps the rhythm symbols  
half the class reads the words
3. switch
4. everyone reads the chant

Oo -	-ey	gooey	mud.
oo -	-ey	gooey	mud.
Rain	falling on the	earth makes	
Oo -	-ey	gooey	mud.

2 Clear the pocket chart. Place the note/symbol flashcards along the bottom two rows. As each one is put on the chart, ask: "How many claps/what is the rhythm count for ...?"

Rhythm Count

1 clap	2 claps	4 claps	1 clap	1 clap	1 clap

3 Choose 5 or 6 words from the list. Find their word cards. (prepare before class)

e.g. sticky icky mud splashing sidewalk boots more

yucky	my
mucky	teacher
icky	father
sticky	mother
muddy	say-ing
mud	clean it up
rain	clean
splashing	it
dropping	up
falling	it up
on the	now
sidewalk	boots
playground	no
driveway	more

4 Place the first word on the pocket chart and say it.. Students show its rhythm count on their fingers. Ask one student to choose rhythm flashcards to represent the word. Place the rhythm symbols above the word. Then ask a student to choose a different way to represent the word. Try out both ways and with the class, choose one to keep. Move it to lower on the chart to make space for the next word. Repeat until the words you have chosen are done.

sticky "Sticky" has a rhythm count of 2 claps.  
How can we make "2 claps" from the rhythm cards?

"ti-ti" has a rhythm count of 2 claps

"ta ta" has a rhythm count of 2 claps.

"ta ta-a has a rhythm count of 2 claps.

"ta-a ta has a rhythm count of 2 claps.

Some students will want to be very creative with their efforts to find interesting combinations of words and rhythm symbols. Enjoy it --the novelty will wear off and expediency will eventually rule.

**NB!**

Be sure to take any "hearts" or "beat markers" off the pocket chart. The class creation will probably not easily fit into a standard number of beats per bar. Let this composition simply be a phrase.

5 Students choose a word or phrase to begin with e.g. mud. Place the symbols for mud under the hearts, and the word for mud under the symbols. NOTE: the word cards are not sized and may overlap.

6 When 6 or 7 words have been placed on the pocket chart, it's time to try out the new composition. Follow the method of learning a chant typically used ---this will help students adapt to the probably odd pronunciation of some words. Don't worry about it too much. Enjoy the strangeness.

**Steps for Learning a Chant Count-In!**

1. Read and clap the Rhythm Symbols
2. Explore the words.
3. 1/2 the class claps the rhythm symbols while 1/2 the class reads the words.
4. Switch
5. Everyone reads the chant.

7 Take a few minutes to let students suggest changes to their creation. Read the revised creation.

8 Repeat Steps 5 to 7.

**Newish Concept: Choosing a rhythm symbol for a word.**

for example mud has a rhythm count of 1

Mud could be represented by | mud

OR

OR

♪ mud

OR

○ mud

because "ta" "ta-a" and "ta-a-a-a" all have a rhythm count of 1.

for example tulips growing has a rhythm count of 4

and could be represented by | | tu-lips grow-ing

OR

OR

♪ tu - | | lips growing

OR

| | | | tulips growing

**Note:** Some of the combinations students choose may sound awkward with the words. This is part of the learning process. You can attempt to help them find solutions that "feel" good -- OR simply enjoy the strangeness..

# Musical Arrangement: Muddy Chants

**Before class:** Prepare copies of each of the "Muddy Chants" either on chart paper, or by copying the word cards. Each group of 4/5 students will need one of the chants to work on.

Divide the class into groups of 4 or 5 students each.

## Group Tasks

1. Decide who is to be conductor.
2. Learn the chant with help of conductor for count-in.
3. Try different tempos and decide on a performance tempo.
4. Add dynamics.
5. Choose percussion instruments
  - \*to keep the beat
  - \*to play on the rests

## Performing

Each group needs an opportunity to perform their arrangement of their chant in front of the class.

**Just for Fun** Chants may be done as rounds, or as "partners". If there is time, try a class performance of chants as rounds and/or partners.

**Rounds:** One, two, or three groups. The second group begins when the first group begins the second line of the chants, etcetera.

**Partners:** All groups perform their chant at the same time ---teacher gives the count-in.
